genus dei

Made in Italy

The Company

Genus Dei S.r.l. is an Italian company founded in 2008 by brothers Marcello and Paolo Monetti who started the business with a single tray and expanded their production in record time, exporting to more than 70 countries around the world and leading this factory to become a leader in the no-food catering equipment.

Genus Dei S.r.l. is now a well-established reality in Italy and abroad with cases for pizza dough, trays and racks for washing and storing glasses. The experience acquired has allowed innovation in the workplace and an organic growth of the staff.

With the new generations taking the reins, we are looking to the future and sustainability, preserving the high quality Made in Italy.

Inside the catalogue it will be possible to immerse yourself 360° in the world of Genus Dei S.r.l. products. Just scan the box to view the extra contents (videos, additional images, technical data sheets). With this QR code you will be able to watch a radio interview to learn more about our company.

Best-Seller Products

CASES

The line of food-grade PE cases confirms itself as the best seller of Genus Dei S.r.l. products. All cases are certified for food contact and are ideal for storing and differentiating foods and dough.

CASE WITH CLOSED BASE AND SIDES

Cases

TECHNICAL FEATURES

- Cases in polyethylene (PE-HD) certified for food contact use
- Compliant with current European regulations
- They do not absorb odors and are easy to clean
- Resistant and light
- Raised bottom to avoid contact with other stacked cases
- Perfectly stackable to prevent the entry of dust and impurities
- Ideal for storage and transport
- Professional dishwasher safe
- Resistant to thermal shocks from -40°C to +80°C
- Compatible accessories for storage and transport

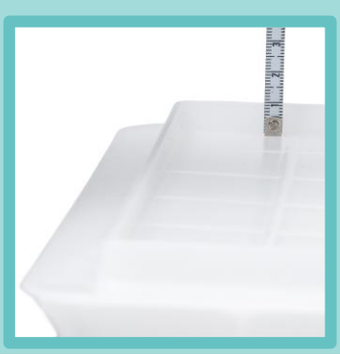
Features

1. 100% PURE AND CERTIFIED PLASTIC THAT DOES NOT YELLOW OVER TIME

Made of homopolymers and certified for food contact.

2. SPECIAL RAISED EXTERNAL BOTTOM

- Allows you to keep the tray raised from the work surface, without the bottom getting scratched and dirty.
- The raised bottom does not take up any area in the stacked case below and you gain precious space for the dough to rise.



3. CUSTOMIZABLE WITH YOUR LOGO: EMBOSSED OR LASER

Two ways to personalize your case and make it unique.

Both options meet the standards for food safety compliance.
Ink used on the case is certified, as well as the raw material used.

- Available in 7 colors.
- Available in 25 colors for MOQ of 300 pcs.

New

New customization techniques!

Choose the option that best suits your needs **

1. EMBOSSED LOGO

With this technique, the logo is impressed on the back of the tray and it maintains the same color of the chosen product. This option is valid if you want to keep untouched the surface of the tray, with a very elegant design.

2. PRINTED LOGO

With this new technique, the logo is printed on the surface of the tray in 10 colors. This option is valid if you want to make visible your company brand.

**** Both options will still meet the standards for food safety compliance.**
Ink used on the tray is certified, as well as the raw material used.

Racks

TECHNICAL FEATURES

- Racks in polypropylene (PP)
- Compliant with current European regulations.
- Assembled and ready for use
- Perfectly stackable
- Ideal for storage and handling
- Ergonomic handle that facilitates lifting
- Extendable corners to adjust the height up to 34 cm
- Open side for effective washing
- Compatible with professional dishwashers
- Resistant to thermal shocks from -20°C to +95°C
- Compatible accessories for storage and transport

How to choose the right rack

1. MEASURE THE DIAMETER

Measure the maximum diameter of the glass to determine the size of the compartments.

2X2	**4 compartments of 226 mm**	**From 147 to 226 mm**
3X3	**9 compartments of 146 mm**	**From 114 to 146 mm**
4X4	**16 compartments of 113 mm**	**From 89 to 113 mm**
5X5	**25 compartments of 88 mm**	**From 74 to 88 mm**
6X6	**36 compartments of 73 mm**	**From 64 to 73 mm**
7X7	**49 compartments of 63 mm**	**From 0 to 63 mm**

2. MEASURE THE HEIGHT

Measure the height of the glass to determine the type of KIT.

KIT 1	**From 0 to 65 mm**
KIT 2	**From 65 to 120 mm**
KIT 3	**From 120 to 240 mm**
KIT 4	**From 240 to 340 mm**

3. DIFFERENTIATE THE RACK

It may happen that glasses with different shapes have the same diameter and the same height, requiring the same type of rack. To differentiate the Contents of the same racks, colored tops are the ideal solution.
